Thank you so much Cliff. I hope I can participate as appropriate.

Derrick will be in touch.

Alexandra Dapolito Dunn, Esq.

Subject: Invitation to speak at April 4 meeting of NASEM Board on Environmental Studies and Toxicology
Importance: High

Dear Alex,

I assume you have seen our invitation to the upcoming meeting of opportunity on PFAS, along with Greg Symmes' and my interest in meeting with you. In hopes that I am not adding unduly to the burden of emails from the Academies, I would like to invite you to contribute to a panel discussion of Environmental Protection Agency leaders, on science issues or initiatives in your Office, at a meeting of the [Board on Environmental Studies and Toxicology \(BEST\)](#), April 4, 2019 in Washington, DC. We would also appreciate your comments on any areas where you think the Academies might be helpful as consultants or reviewers. The mission of BEST is to provide our nation with independent, objective advice and dialog on matters related to the impacts of human activities and environmental exposures on environmental quality and human health and ecosystems.

Each contributor will have about 15 minutes to speak followed by a general Q&A with the board members. You may participate either in person or remotely by ZOOM from your home or office if that is

more convenient. We are also inviting representatives from the Offices of Research and Development, Land and Emergency Management, Air and Radiation, and Water.

Please let me know if you or a colleague are able to join our discussion, and whether you have a preference for morning or afternoon. We will determine the exact time based on your and others' availabilities. I appreciate this is somewhat short notice, but hope you will be able to participate.

Please let me know if you have any questions. Thank you for your consideration.

Regards,
Cliff Duke

Clifford S. Duke, Ph.D.

Director, Board on Environmental Studies and Toxicology
The National Academies of Sciences, Engineering, and Medicine
